

Recycled Plastic News

Pictured below are some examples of recycled plastic products recently installed around Australia.

Industrial & Domestic Plastic Waste Used As A Resource

Picnic settings have been placed along the Murray river in South Australia. The council chose recycled plastic as it has minimal maintenance requirements.

Trinity Beach is north of Cairns and has had specially designed 3.6m picnic settings placed along their beach front. Pictured here are some being used in a undercover eating area.

Still in Cairns at Babinda Pool you will find special wheelchair access picnic settings. The chemicals used in the pools have no effect on the recycled plastic benches and tables.

Liverpool Council recently installed several picnic settings with chess boards recessed into the tops. Liverpool mall is now the home to some keen chess players.

A dam wall using recycled plastic wharf fenders? In the next edition we will show you the end result – its amazing!

Cairns City Council installed recycled plastic boardwalk to prevent people tripping on a broken footpath caused by tree roots beneath.

The boardwalk is installed on 60mm x 110mm rails and allows some expansion as the roots rise out of the ground over time.

Concrete will crack and raise up and make a trip hazard which the Council can be liable for.

Cairns Port Authority is realising the potential of the recycled plastic decking to replace timber and ply that was used on the ramps at the local marina. A grooved finish plank is the perfect solution for the slip problems that may have arisen over time when using the timber alternative.

Coastwatcher Park in Cairns has recycled plastic bollards, wheel stops, picnic settings, playground edging, signage and seats installed which showcases the Council's ongoing commitment to upgrade their parks and gardens and find alternative products that are very low maintenance, environmentally friendly and CCA free.

The above latest installations is only a small example of what can be produced from recycled plastic products to view the complete range products available and see more imaginative installations please visit
