

REPLAS

Signs

Replas makes a range of recycled-plastic signs. Our signs are extremely hard wearing, offering you an economic and ethical alternative to using timber.

Our five standard signs have been specifically designed to suit your needs and are available in a range of colours. As the colour is built into the plastic you are assured a virtually maintenance-free solution.

BOLLARD SIGN

PADDLE SIGN

PODIUM SIGN

PLANK SIGNS

TRACKMARKER SIGN

SIGNS	WIDTH (mm)	HEIGHT (mm)	LENGTH (mm)	WEIGHT (kg)

* Available in single/double/triple plank.

Complement your furniture or signage with our custom plaques & routing

Include your special message or logo to create a unique piece of furniture. Be creative and let us help you design a plaque or route that reflects your organisation.

PLAQUES ARE PERFECT TO:

- Memorialise a community member
- Recognise a sporting achievement
- Commemorate an award.

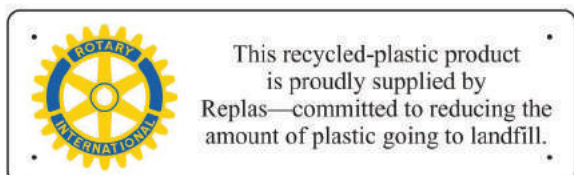

Images are reverse printed and applied to the back of the polycarbonate. A polyester film creates a superior, scratch resistant matte finish. The polycarbonate material and polyester film are UV and chemical resistant.

Plaques are routed into the recycled-plastic structure to ensure that the sign is flush mounted and cannot be easily removed by vandals. This also creates a cleaner, more streamlined look.

ROUTING

Your message can also be directly routed into the planks in 3D, either painted in your choice of colour or unpainted.

A variety of sizes, colours and graphics available.
