

Parts List

Platform Top (x1)
Platform Supports (x4)
75 mm Bugle Screw (x8)

Instructions

We recommend assembling our products on a flat surface, taking care not to damage the plastic.

Step 1: Place platform face down on a flat surface.

Step 2: Place supports into corners and using a 4.5 mm bit, drill a pilot hole through the slats into the support. Ensure supports are square before drilling pilot holes.

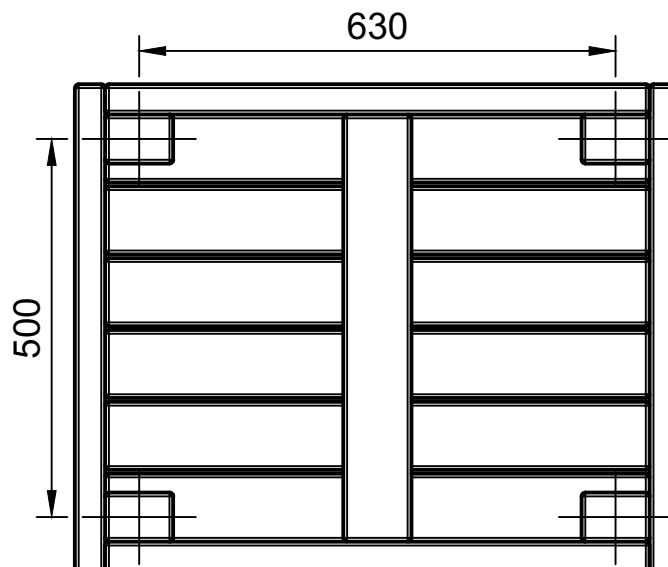

Step 3: Attach the supports with the 75 mm Bugle screws provided.

Step 4: Drill or dig holes approximately 400 mm deep as per the hole layout below.

Step 5: Place the sit stay platform into position and brace to prevent movement or sagging, use a spirit level to ensure the platform is level.

Step 6: Once positioned, fill holes with concrete. After the concrete has set remove bracing.
